DIRECTORY BIO GUIDELINES

We find that success goes together with having a strong, collaborative team. As colleagues we respect each other's diverse experiences and perspectives, which can help everyone learn from each other.

Please take a moment to complete this template and provide it back to Lani Tarozzi in the Communications team (lani.tarozzi@populationhp.com) in advance of your start date. This Directory Bio will be used by your hiring manager to introduce you to the Metsera team and will be posted on the Portal Colleague Directory, an internal resource to connect with colleagues.

Directory Bio

Provide us with a short professional bio that showcases who you are, highlighting your profession, accomplishments, passions and interests. Fitting all the details of your professional life can be a challenge but please try to be concise.

Guidelines for writing your Directory Bio

1. Write your bio in first person.
2. Identify your professional and personal goals.
3. Mention any industry related companies you are associated with.
4. Include at least one professional accomplishment.
5. Briefly share who you are outside of work.
 - Examples: hobbies, information about family life, funny details about habits or interests, unique personal history
6. Include a high-resolution photograph in black & white, if possible. If not, our Design Team will adjust.
7. Spell check & save as a Word Doc.
